

# Anushka Madushanka

Full stack Developer

## Objective

---

Experienced Full Stack Developer with a robust 6+ years in the industry, devoted to crafting user-centric, scalable, and secure web and mobile applications. Proficient in translating ideas into precisely engineered applications, utilizing an extensive range of programming languages and frameworks. With a demonstrated history of leading diverse projects, I am dedicated to continuous learning and embracing emerging technologies, employing them innovatively to deliver meaningful solutions.

Eager to tackle new challenges and contribute expertise to pioneering projects.

## Work Experience

---

### Software Engineer (Full Stack Developer)

Bourke Technologies

Sep 2017 - Jan 2021 · 3 yrs 5 mos

At Bourke Technologies, I led the development of diverse projects utilizing Angular, .NET WEB API, Genie, and Microsoft SQL Server. Notably, I spearheaded the creation of a Hospital Communication System, featuring a live video conferencing app for intra-hospital communication, enhanced with React Native. Additionally, I implemented Bunnings, an indoor navigation system for supermarkets, leveraging Unity 3D Game engine alongside the primary tech stack. I also delivered Burgercafe, a robust POS system with an integrated admin panel, employing WPF and Firebase. Furthermore, I crafted Buckingham Tea, an e-commerce website integrating Stripe Payment APIs and Firebase for seamless user experience.

### Lead Web Developer

ShopShareTV - Customised Shopping Videos

Jan 2021 - Present · 2 yrs 11 mos

At Shopshare.tv, I contributed significantly to the development and maintenance of projects utilizing React, NodeJs, GraphQL, AWS, PostgreSQL, and Sequelize. I played a pivotal role in enhancing Shopshare, a dynamic social commerce platform, by implementing pricing plans, team functionalities, content management tools, and robust admin reports. Additionally, I managed bug fixes, optimizations, and ongoing improvements. Moreover, I led the creation and upkeep of two integral projects: ShopRecorder, a chrome extension enabling the creation of shoppable content videos by recording browser tabs, and Shopcast, a Shopify widget providing tailored guidance on specific products within online shopping sites.
